Acme Robotics · Quarterly Field Report

Prepared for: Operations Review Board

Date: 2026-04-15 Report ID: QFR-2026-Q1-0042

Summary

This document is a synthetic sample used to exercise the PDF-to-markdown OCR pipeline. It contains a heading hierarchy, a short paragraph, a bulleted list, and a small table so the converter has representative structure to transcribe.

Highlights

- Uptime across all field units exceeded the 99% target.
- Two firmware regressions were identified and rolled back.
- Battery swap time improved from 8.2 to 6.4 minutes on average.

Unit Metrics

Unit	Region	Deliveries	Faults
RX-01	North	1,204	3
RX-02	East	987	1
RX-03	West	1,432	5
RX-04	South	756	0
